

Safety tips from a trusted friend.

Associa Supports Kids
Keeping kids safe and strong

“Thousands of children live and play in Associa-managed communities, and we are committed to keeping them safe and strong. Through the Associa Supports Kids program we educate the families who call our communities home about child injury risks and prevention. And, to help kids lead active, healthy lives we sponsor youth sports activities.”

John Carona
President and CEO, Associa

Lending a helping paw.

Associa, the nation's leader in community association management, has served families in neighborhoods across the U.S. for over 30 years and is passionate about keeping kids safe and strong. The Associa Supports Kids (ASK) program educates parents and their children about safety and sponsors youth sports activities to help kids stay active.

As part of the ASK program we provide parents and their children with important safety tips in and around the home, and for all seasons and holidays. To get kids excited about safety, Scout, the ASK mascot, travels around the country to share stories and interesting safety facts and tips with kids and their parents at community association events.

We provide a parents' safety tip brochure, children's safety tip coloring book, child identification kit, Scout stuffed animals, information packet, website and much more.

To learn more, call 800.808.4882, ext. 5680 or visit us at www.associasupportskids.org.

Health & safety matter.

- Car accidents are the number one killer of children from ages 1 to 14.

(Source: National Center for Injury Prevention and Control)

- Although drowning rates have slowly declined, fatal drowning remains the second-leading cause of unintentional injury-related death for children ages 1 to 14. (Source: Centers for Disease Control and Prevention)

- 20% of children ages 6 – 11 are obese.

(Source: Centers for Disease Control and Prevention)

- Bicycle accidents put more kids in hospital emergency rooms than any other activity.

(Source: U.S. Consumer Product Safety Commission)

- Less than one-third (28%) of high school students meet currently recommended levels of physical activity.

(Source: Centers for Disease Control and Prevention)

Stay safe & strong.

- The safest place for all infants and children to ride is in the back seat.

(Source: HealthyChildren.org)

- Children and adolescents should do 60 minutes or more of physical activity daily. (Source: Home Safety Council)

- All smoke alarms should be tested at least once a month to make sure they operate properly.

(Source: U.S. Consumer Product Safety Commission)

- When biking, your child should always wear a bike helmet and ride with at least one hand on the handlebars. (Source: National Highway Traffic Safety Administration)

- Make sure your child's coach has regular fluid breaks during practices and games, about every 20 minutes.

(Source: National Institute of Arthritis and Musculoskeletal and Skin Diseases)

- To prevent cyber bullying, help your children set up their email or chat accounts so they don't give out any personal information and make sure you have their screen names and passwords. (National Crime Prevention Council)
